

art in science SHOW 2025

LOGO DESIGN: "Running in Circles" by Ross Allen, Boulder, CO, 2023

EVERYTHING GALAXIES!

Calling all young artists!

Are you inspired by our natural world and the universe around us, including all the latest discoveries you see in the news? Do you create art about these topics? Do you want an opportunity to showcase your talents?

Submit your artwork in person Tuesday, 10/28 through Friday, 10/31, by dropping it off at The Waterworks (184 San Marco Ave). Or submit digital art on our website, www.artinscience.org, anytime before October 31st. There are three categories, for under-10s, 11-14, and 15-18 year old artists.

The opening of the show is on November 7th (First Friday), from 4 to 8 pm. We will have guest judges (artists, scientists, and educators) to award multiple certificates and prizes. All works will be on display to the public after November 7th, and can be viewed through December 17th.

In-person submissions will be available to artists for pick up after the show, during Waterworks business hours, December 18-23.

Submit your art by October 31st and join us Friday, November 7th at The Waterworks for the show!

Please visit our website, www.artinscience.org, or contact AiS@spacescience.org for more details.
